

# Joint International Conference on ICMAP 2020 & ISFM 2020

August 16-20, 2020 / August 16-19, 2020  
PHOENIX JEJU Hotel & Resort, Jeju Island, Korea

---

## Dr. Jooyoung Lee

Korea Institute of Materials Science, South Korea

---

Dr. Jooyoung Lee is currently a research scientist in Materials Center for Energy Convergence at Korea Institute of Materials Science (KIMS) since 2019. He received Ph.D. degree from Sungkyunkwan University in 2019. From 2016, He published 17 international journal papers related to energy material and electrocatalyst of water splitting. His current research interests are in the development of new electrocatalysts based on transition metals. Recently, he has become interested in water electrolysis system, especially investigating anion exchange membrane water electrolyzer.
