

# Joint International Conference on ICMAP 2020 & ISFM 2020

August 16-20, 2020 / August 16-19, 2020

PHOENIX JEJU Hotel & Resort, Jeju Island, Korea

---

## **Prof. Cheorun Jo**

Seoul National University, Korea

---

Dr. Cheorun Jo received BS, and MS at Seoul National University, Korea, and Ph.D. with Meat Science/Food Science and Technology major at Iowa State University, USA. He is currently a professor of Department of Agricultural Biotechnology at Seoul National University, Korea. Dr. Jo's research interest has been focused mainly on improvement of quality and safety of muscle-based foods using innovative fusion technologies. Especially, with more than 12 years of collaborative research with experts in KAIST and Plasma Technology Research Center, NFRI, his specialty in application of cold plasma technology on food has been recognized. He also highly interested in bioactive agents derived from animal resources and its application. Recently, he also has interested in fundamental research in production of cell cultured muscle-based materials.
